The American people will not long endure a tariff policy that gives Argentine an advantage over the home producer.

LARYNGITIS is not such a bad disease after all. It permits the patient to speak when he wants to and remain silent when silence seems to be preferable.

It is full time for the erection of Mr. Wilson's gallows. Just to show to what length the opposition to the personal policies of President Wilson the racially business man will go we note the failure of the H. B. Claffin Dry Goods Co. for thirty millions. Of course there was no real reason for this failure. It was simply a put up job to discredit the administration.

Democracy Has Failed.

The Democratic administration at Washington has been a failure, a complete and consummate failure. Even President Wilson has been convinced of the error of Democratic ways, and he has determined to depart from them.

Down in Louisiana the Democratic party acting as one man has denounced the party, and have abandoned it. Their industries and interests, more important than their party affiliations, have been destroyed by the Democratic tariff tinkering, and for the time there is no Democratic party in that overwhelming Democratic state.

The Democratic President has faced about on every important issue in government, and therefore it most, in the very nature of things political, be pleasing to the Pennsylvania Republicans at Washington turning reluctantly to the policies and principles of the Republican party in the very slim hope of saving its face when the storm of protest seems certain to sweep it out of existence.

Incidentally the Republican party of Pennsylvania was never in better form for a battle for its principles and policies all along the line. What the Democrats now seem willing to do to protect itself, the Republican party has always been willing to do from principle. The people of the state will submit to no more political experiments. They will insist upon restoring the Republican party to power with a view to enjoying again that party's policy of protection and prosperity.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Great Accomplishment.

The most noteworthy newspaper achievement of years is the securing of Theodore Roosevelt, most popular and notable American of his day, as a regular contributor to The Pittsburg Sunday Dispatch.

The strenuous one will tell in graphic style all the adventures of his tremendous trip of thousands of miles through the hitherto unpenetrated Brazilian wilderness, and he will give to readers of this paper first-hand view of the wonderfully valuable photographs taken by Kermit Roosevelt and others as well as a close insight to the remarkable scientific facts discovered by him.

"The River of Doubt," now the most famous stream in the world, will be described during the course of the series, which will be a long one and the most fascinating ever attempted for newspaper publication.

The former President is holding nothing in reserve in his stories, but is giving all the facts and experiences which he has withheld from the public until the appearance of this series.

This wonderful series started last Sunday—and may be found only in The Pittsburg Sunday Dispatch.—adv.
